

Vision Support Ingredients

100% Traceable Source

Omega-3 Triglyceride - The natural form of omega-3 is proven to absorb 70% better than 'drug store' ethyl ester alcohol fish oils.¹

Omega-7 - Can improve Dry Eye by enhancing mucous membranes and has been shown to reduce CRP - a marker of inflammation.⁷

Vitamin D3 - Women with the highest levels of Vitamin D had a 59% decreased risk of developing Macular Degeneration. Three-quarters of U.S. teens and adults are deficient in vitamin D.⁴

Lutein & Zeaxanthin - The consumption of Lutein and Zeaxanthin reduces the risk of developing Macular Degeneration and Nuclear Cataracts by 57% and 36% respectively.^{5,6}

Frequently Asked Questions

How do I know that Ultra Dry Eye TG works?

45% of dry eye patients were asymptomatic and 100% showed improvement after taking Ultra Dry Eye TG for 30 days and the Dry Eye Compress for 5 minutes per day in a recent study.⁸

I've tried to take fish oil but I couldn't stand the "fish burps." How is Ultra Dry Eye TG different?

Ultra Dry Eye TG is in the triglyceride molecular (TG) form, — it absorbs directly through the small intestine into the blood stream — this gives it superior bio-absorption and no fish burps guaranteed!

Can't I just buy fish oil at the drugstore?

In 2011 nine name brand "drugstore" fish oils were found to contain excessive levels of plasticizers (PCB's), a known carcinogen.^{2,3} Also, using "drugstore" fish oil would require at least 8 pills a day to achieve the 2,000mg of Omega-3 needed to treat Dry Eye Syndrome.

Is it true that some fish oils are an alcohol?

Yes, if your bottle of fish oil doesn't say 'Triglyceride' form, it's an ethyl ester (EE) alcohol — which can only be absorbed through the liver. Due to this inefficient absorption EE fish oil loses 60% of its potency in digestion and causes the "fish burps."¹

How do I know that OcuSci products don't contain contaminants? Our products are independently tested and certified free of contaminants by lot and the results are published at OcuSci.com

All Fish Oils Are Not Created Equal

Money Back Guarantee - Improve Dry Eye symptoms in 30 days or your money back - no questions asked!

- No fish burps guaranteed!
- Tested & certified free of contaminants
- Made in the USA, certified sustainable, wild caught Alaskan Pollock

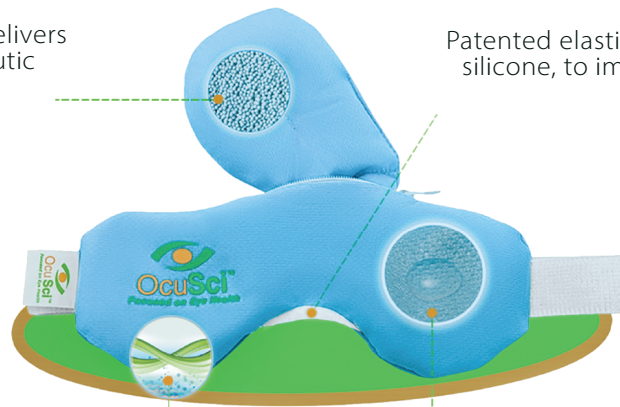

These statements have not been reviewed by the FDA, these products are not intended to treat, cure or prevent any disease.

Instant Dry Eye Relief - Anytime - Anywhere!

All natural mineral fill delivers long-lasting therapeutic HydroHeat.

Patented elastic nose piece, lined with silicone, to improve fit and comfort.

Silver+ antimicrobial infused machine - washable cover. Fights bacterial growth and odor!

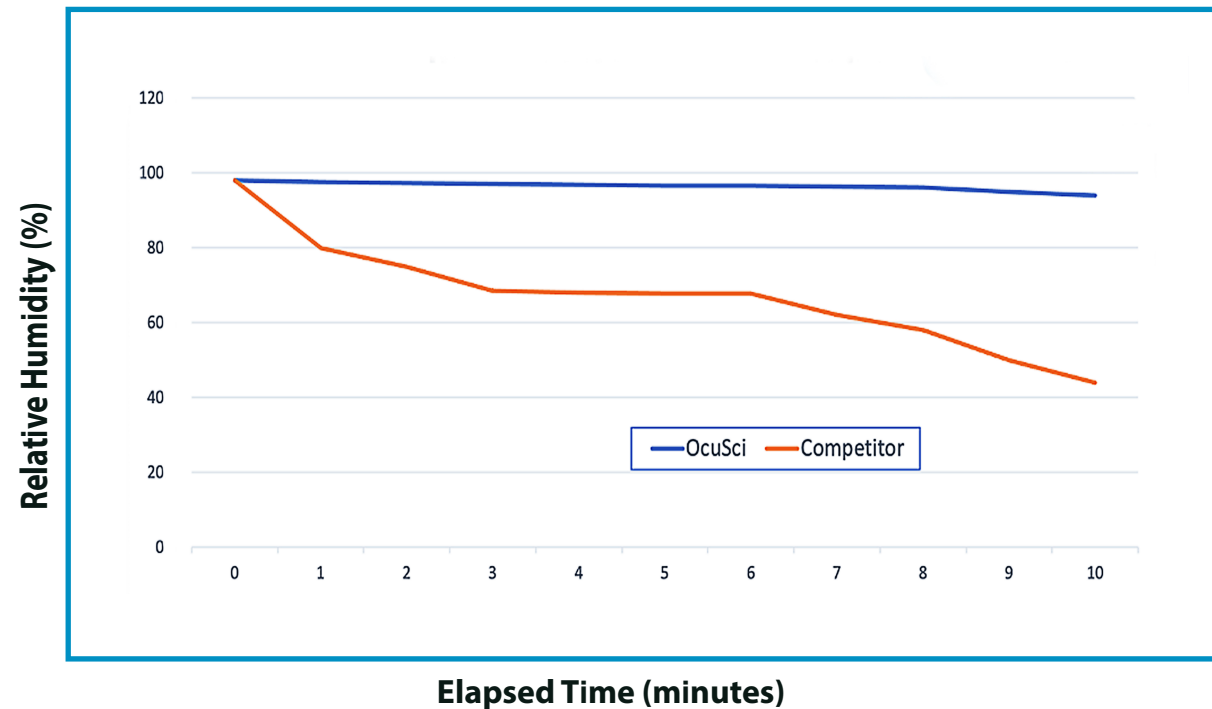

HydroBlock technology concentrates the therapeutic heat on the eyelids.

New!

Electronic Compress

- USB powered - use anywhere
- Comfortable and convenient
- Machine - washable cover

Moist Heat for 10 Minutes!

Use HOT or Cold! 🔥 ❄️

- Just heat in the microwave for 20 seconds!
- Machine - washable wicking cover
- 1 year Replacement Warranty!
- Put in the freezer to treat swollen, puffy eyes
- Can also be heated in an Oven

Antimicrobial, and lasts for years The Dry Eye Compress will not support bacteria or fungi growth, unlike grain and seed products.
